D. New Business

1. Public Hearing – Rezoning from Mixed Use 2 to Planned Unit Development (PUD) & Final Site Plan (SP 19-02-03) to construct four-story multiple-family building with 48 upper-level dwelling units and underground and ground-level off-street parking on site of former jewelry store (Chinn Jewelry) at 1003 S. Washington Ave. (parcel no. 25-21-431-024)
   Duke & Duke, LLC, Petitioners & Owners
Moved by Commissioner Douglas  
Supported by Mr. Quesada

Be it resolved, that the request to rezone 1003 South Washington Avenue (parcel no. 25-21-431-024) from mixed use 2 to planned unit development (PUD) in order to construct a four-story multiple-family building with 48 upper-level dwelling units and underground and ground-level off-street parking on the site of a former jewelry store (Chinn Jewelry) is hereby referred to the city commission with a recommendation for approval, based upon the following:

a. Granting of the PUD will result in a recognizable and material benefit to the ultimate users of the project and to the community, where such benefit would otherwise be unfeasible or unlikely to be achieved without application of the PUD regulations.

b. The proposed type and density of multiple-family dwelling units will not result in an unreasonable increase in the need for or burden upon public services, facilities, streets, and utilities.

c. The proposed multiple-family building is consistent with the public health, safety, and welfare of the city.

d. The proposed multiple-family building will not result in an unreasonable negative economic impact upon surrounding properties.

e. The proposed development is under single ownership and/or control such that there is a single entity having responsibility for completing the project in conformity with the zoning ordinance.

f. The proposed multiple-family building is consistent with the goals, policies, and future land use map of the city’s master plan.

Be it further resolved, that SP 19-02-03, a final planned unit development (PUD) site plan to construct a four-story multiple-family building with 48 upper-level dwelling units and underground and ground-level off-street parking on the site of a former jewelry store (Chinn Jewelry) at 1003 South Washington Avenue (parcel no. 25-21-431-024), is hereby referred to the city commission with a recommendation for approval with the following contingencies:

a. The petitioner shall apply for review of the rezoning, final PUD plan, and development agreement by the city commission and submit all information required under § 770-99 C of the zoning ordinance.

b. The final PUD plan shall comply with the zoning ordinance (chapter 770), as well as all other applicable codes and ordinances, except for the following:

1) A driveway with a width of no more than 22 feet shall be permitted as partial ground-level street frontage along South Washington Avenue as depicted on the plan sheets. No more than eight off-street spaces shall be permitted as partial ground-level street frontage along West Hudson Avenue as depicted on the plan sheets.

2) A density of no more than 48 multiple-family dwelling units shall be permitted.

3) A building height of no more than 43 feet shall be permitted.

4) Building setbacks of less than 10 feet shall be permitted from all parcel boundaries as depicted on the plan sheets.

5) Triangular setbacks for corner vision clearance of less than 10 feet shall be permitted as depicted on the plan sheets at the intersection of South Washington Avenue and West Hudson Avenue, the intersection of West Hudson Avenue and the public alley, and the intersection of the driveway and South Washington Avenue.
6) No less than 63 off-street parking spaces shall be required, including required barrier-free parking spaces.
7) Height-to-width ratios greater than one-to-three shall be permitted for the north and south façade elevations as depicted on the plan sheets.
8) Interior landscaping equaling less than 10% of the lot area shall be permitted as depicted on the plan sheets.
9) No screening in the form of a six-foot landscaped buffer, masonry wall, and/or fence shall be required along either the east rear lot line or the east right-of-way line of the public alley.

c. Prior to review by the city commission, the final PUD plan shall be revised to include the following:

1) Required right-of-way and streetscape improvements – sidewalks, street trees, street lamps, curbs, on-street parking lanes, driveway approaches to adjacent properties, etc. – shall be added to the architectural site plan (sheet AS00), main level plan (sheet A101), and landscape plan (sheet L101) according to the engineering division's required standards. Required improvements shall be added to the specified plan sheets instead of notes stating that required standards shall be met.

d. All paving, utilities, and work within public rights-of-way shall be in accordance with the specifications and standards of the city engineer and included on the final PUD plan, including, but not limited to, the following:

1) Installation of a stormwater detention system;
2) Installation and/or restoration of the streetscape for South Washington Avenue and West Hudson Avenue according to established plans and design patterns, including the planting of street trees; and
3) Replacement and/or reconfiguration of the existing driveway approach on West Hudson Avenue.

e. Exterior lighting shall be as depicted on the final PUD plan, and any additional exterior lighting fixtures shall comply with § 770-96 B of the zoning ordinance and other city codes and ordinances.

f. Signage shall comply with the sign ordinance (chapter 607) or receive necessary variances from the planning commission.

g. The final PUD plan shall meet all other code and ordinance requirements, as determined by the building official, fire marshal, and city engineer, including, but not limited to, the state building code, the city's fire prevention ordinance (chapter 340), and the city's stormwater detention ordinance (chapter 644), prior to the issuance of any building or right-of-way permits.

Motion adopted 6 to 1.
