

City of Royal Oak

2015 – 2024 Road Millage

The following list contains the list of streets improved under the City of Royal Oak local millage. This work was funded by the 10-year road millage, approved by voters in 2014. The millage extended from 2015 through 2024, and includes various types of road improvements.

The table provides each street in an alphabetical list, with the following information:

Section	The section of the city in which the street is located. The city is divided into 16 sections, from north to south: 32, 3, 4, 5, 6, 7, 8, 9, 10, 14, 15, 16, 17, 21, 22, 23
PASER Rating	Each street is rated using the PASER (Pavement Surface Evaluation and Rating) system, which the method used in the State of Michigan. Each street is rated on a scale of 1 to 10, with 1 being very poor condition, and 10 being excellent condition.
Type of Improvement	There are several types of road improvements performed under the road millage program:
<i>Conc. Patch</i>	<i>Removal and replacement of deficient concrete sections on the roadway.</i>
<i>Mill & Cap</i>	<i>Removal of asphalt by milling, followed by topping with new asphalt. This program also includes replacement of curbing where necessary.</i>
<i>Joint Seal</i>	<i>Filling cracks on existing pavement with joint sealing material. This program also includes limited replacement of curbing where necessary.</i>
<i>R&R</i>	<i>Complete removal of roadway pavement and replacement with concrete pavement.</i>
<i>Water/Sewer</i>	<i>Some streets are scheduled for water main or sewer upgrades along with the road work.</i>
Year	The year in which the road improvement was completed.

Note: Unimproved roads (primarily gravel) are not included as part of the road millage program. For more information about paving an unimproved road, contact the city's engineering division.

2015-2024 Road Millage Alphabetical Listing of Streets

Street:	From:	To:	Section	2023 PASER Rating	Type of Improvement						Year
