

City of Royal Oak, Michigan Adopted Capital Improvement Plan

FY2018-19 to FY2023-24

Life Now Playing

Finance Department
211 South Williams Street
Royal Oak, MI 48067

February 1, 2018

Dear Planning Commission Members:

The enclosed capital improvement plan (CIP) serves as the city's multi-year planning instrument used to identify needs and potential financing sources for public infrastructure improvements. The purpose of a CIP is to facilitate the orderly planning of infrastructure improvements; to maintain, preserve, and protect the city's existing infrastructure system; and to provide for the acquisition or scheduled replacement of equipment to help to ensure the efficient delivery of services that the community desires. The goal is to use the CIP as a tool to implement the city's various master plans, goals, objectives, policies and to assist with the city's financial planning.

The CIP plays an important role by providing the link between planning and budgeting for capital and non-routine expenditures. The CIP process occurs prior to the operating budget process as the CIP will be used to develop the capital portion of the budget. Approval of the CIP by the planning commission does not signify final approval or funding of any project contained within the plan. Rather, by approving a CIP, the planning commission acknowledges that they agree that the projects present a reasonable interpretation of the upcoming needs / wants for the city and in compliance with the city's master plan. The projects contained in the first year of the plan will be requested in next year's department requested budget and potentially advance to the manager's recommended and/or city commission's approved budget.

The CIP document includes several areas of projects such as street improvements, water & sewer improvements, city parks / facilities improvements, information technology, and vehicles, equipment, large studies, and other. An aggregate spreadsheet listing the summary of projects with current cost projections (in today's dollars) is found in the document after the project description section. Near the end of document, the project application forms are included to provide readers with an understanding as to how a project is submitted and rated.

In the future, it is recommended that the administration and planning commission members work together to better define and develop Royal Oak's CIP process for future years. CIP topics to improve could include the following: a project raters group to improve the legitimacy of project scoring and improve upon the reporting of related operating costs / savings impact by submitters.

Preparation of the CIP is performed under the authority of the Michigan Planning Enabling Act (Act 33 of 2008) which repealed and replaced the Municipal Planning Commission Act (PA 285 of 1931). A public hearing on the draft capital improvement plan was conducted on March 13, 2018. The adopted CIP will assist the administration and city commission during the budget development process. The planning commission's assistance throughout this process is greatly appreciated.

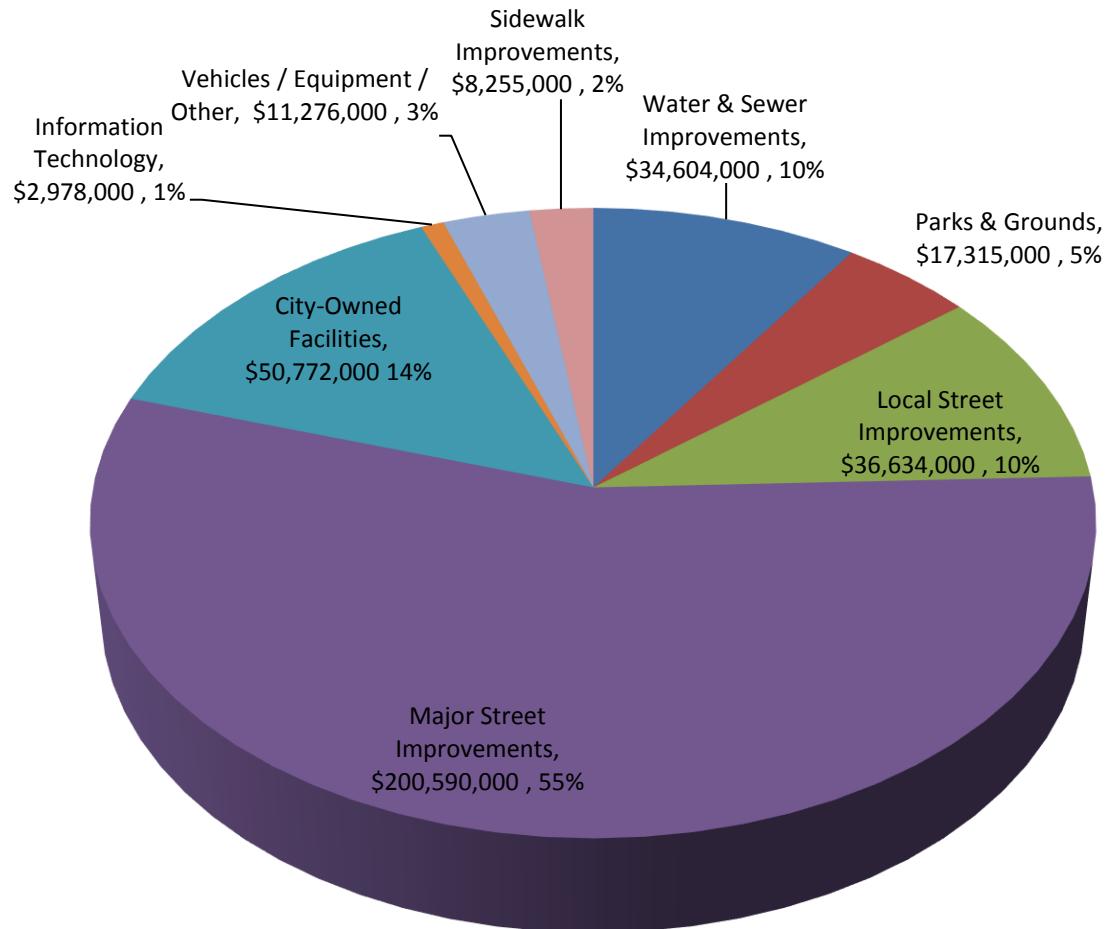

Respectfully Submitted,

Julie Rudd
Director of Finance

CAP1961	Aerial Lift
Project Length: 2019	City Share: 100%
Estimated City Cost: \$13,000	Funding Source: motor pool fund / user charges
Impact on the Operating Budget: Savings by reducing the need to rent equipment. Estimated at \$225 per day, 10 to 15 days per year.	
Description: Aerial lift for light maintenance at the Salter Center, ice arena, farmers market, library, and parking garages.	

CAP1962	Brine Tank
Project Length: 2019	City Share: 100%
Estimated City Cost: \$100,000	Funding Source: motor pool fund / user charges
Impact on the Operating Budget: Reduce salt usage by \$2,500 annually.	
Description: Expansion of brine making capability. As more plow trucks have had brine tanks added, the current storage and production capability has been exceeded. This improves the efficiency of snow operations.	

CAP1963	Leaf / Snow Claw
Project Length: 2019	City Share: 100%
Estimated City Cost: \$12,000	Funding Source: motor pool fund / user charges
Impact on the Operating Budget: Increased service due to reduced downtime when repairs are occurring.	
Description: Purchase an additional claw for leaf/snow removal. This would provide a 3rd claw to rotate into service when the other claw is down for repairs, allowing operations to continue.	

CAP1964	Paint Machine
Project Length: 2019	City Share: 100%
Estimated City Cost: \$10,000	Funding Source: motor pool fund / user charges
Impact on the Operating Budget: Reduced maintenance and down time for street painting crew.	
Description: Replacement paint machine for street marking as current machine has reached end of life after 15 plus years.	

CAP1965	Fire Department Turnout Gear
Project Length: 2019	City Share: 100%
Estimated City Cost: \$80,000	Funding Source: public safety fund
Impact on the Operating Budget: Unknown	
Description: Replace 33 units of unserviceable turnout gear to provide proper safety for firefighting.	

CAP1966	EKG Monitor Replacement	
Project Length: 2019	City Share: 100%	
Estimated City Cost: \$70,000	Funding Source: public safety fund	
Impact on the Operating Budget: Unknown		
Description: Replace two EKG monitors as some are presently defective and for uniformity of gear.		

CAP1967	Fire Department Radio Replacement	
Project Length: 2019	City Share: 100%	
Estimated City Cost: \$35,000	Funding Source: public safety fund	
Impact on the Operating Budget: Unknown		
Description: Replace ten old and failed radios.		

PROJECTS UNDER REVIEW

Projects Under Review are projects that may be deemed as worthy and viable; however, they are not included as part of the active 2019-2024 Capital Improvement Plan as additional research or review is ongoing. Projects under review may require additional information, studies or city commission policies to be in place before more accurate timelines and/or funding levels can be identified. It is possible that projects under review may not fall under the city's jurisdiction and will require other agencies to move the project forward; while some projects may not fall within the 2019-2024 timeframe.

Fire Station #1 and #2 Construction/Strategic Relocation	
Project Length: N/A	City Share: 100%
Estimated City Cost: \$12,000,000	Funding Source: public safety fund / sale of stations
Impact on the Operating Budget: Unknown	
Description: Strategically relocate two fire stations, eliminating the three current stations. Position one fire station near Gardenia Avenue & Main Street and the other station near 13 Mile Road & Crooks Road.	

Capital Improvement Project Instructions

A capital improvement plan (CIP) is a multi-year planning instrument used to identify needs and potentially the financing sources for public infrastructure improvements. The purpose of a CIP is to facilitate the orderly planning of infrastructure improvements; to maintain, preserve, and protect the city's existing infrastructure system; and to provide for the acquisition or scheduled replacement of equipment to ensure the efficient delivery of services that the community desires.

Preparation of CIP is done under the authority of the Michigan Planning Enabling Act (PA 33 of 2008). The goal is to use the CIP as a tool to implement the city's various master plans, goals, policies and to assist in the city's financial planning.

The CIP plays an important role by providing the link between planning and budgeting for capital expenditures. The CIP process occurs prior to the budget process as the CIP will be used to develop the capital and operating portions of the department requested budget.

Approval of the CIP document by the planning commission **does not** signify final legal appropriation of any project contained within the plan. Rather, by approving the CIP the planning commission acknowledges that they agree that the project presents a reasonable interpretation of the upcoming needs/wants for the city, with the projects contained in the first year of the plan potentially becoming the basis for the city's capital budget. It is important to note that the priority ranking on the "Assessment Form" does not necessarily correspond to funding sequence.

Instructions

- If you have a **NEW** capital *infrastructure* project request is equal to or in excess of \$10,000 please complete the following forms:
 - Capital Improvement Plan – Project Application **Form 1** (2 pages)
 - Project Application – (cost breakdown) **Form 3**
 - Capital Improvement Assessment **Form 4**
- If you have a **NEW** equipment/vehicle/ study/professional Services /Technology/Other Project request is equal to or in excess of \$10,000 please complete the following forms:
 - Capital Improvement Plan – Project Application **Form 1** (2 pages)
 - Capital Improvement Plan – Equipment/Vehicle/Study/Professional Service/ Technology/ Other Application **Form 2**
Be sure to complete the cost impact information on Forms 2 and 3
 - Project Application – (cost breakdown)**Form 3**
 - Capital Improvement Assessment **Form 4**

MODIFICATION FOR EXISTING PROJECT: If you have a modification to a CIP project that was submitted in a prior year, or wish to delete a prior year CIP project - please fill out the forms or highlight the change on the original form and resubmit. Changes such as the needs assessment rating, scope of the project, fiscal year of project or estimated change in cost are considered modifications.

PLEASE SUBMIT COMPLETED FORMS TO FINANCE BY MONDAY, JANUARY 2, 2018. ANY PROJECTS THAT DEVELOP FROM THE CITY COMMISSION STRATEGIC BUDGET SESSION ARE DUE TO FINANCE BY JANUARY 26, 2018.
