## Notice of Construction

This spring the City of Royal Oak is planning to replace approximately 250 feet of pavement under the Northwood Boulevard railroad viaduct. The project will also include installing a section of water main pipe while the road is excavated. The contractor is F.D.M. Contracting, Inc. of Shelby Township, Michigan and the city engineering staff will inspect the project. **The city anticipates there will no disturbance in water service unless an unforeseen emergency arises.**

**Construction Timeline:** Construction is anticipated to take approximately five weeks (weather permitting) and begin in mid-May. Work is currently not scheduled for Sundays or holidays.

**Road Closure:** In order to minimize the inconvenience and expedite construction, **Northwood Boulevard will be closed to through traffic in both directions** for the duration of the construction as shown on the map on the reverse of this page. The eastbound travel lanes will be closed at Bonnie View Drive/Oliver Road. The westbound travel lanes will be closed at Galpin Avenue.

**Parking:** - During construction, there will be lane restrictions to allow for construction equipment and residential access. "No Parking - Tow Away Zone - 7:00a.m. - 8:00p.m." signs will be posted 12 hours in advance wherever required to allow for various construction operations.

**Trash Pickup:** Unless otherwise notified, there will be no change in the trash pickup dates and the trash will be taken care of as usual during the construction operations.

**Landscaping/ Restoration:** Where lawn areas have been damaged by the contractor's operations, the disturbed areas will be replaced with topsoil and sod/seed. The city does not replace special landscaping, brick, timbers, plantings, fences, or shrubs placed on city's property or within the public utility easements. The contractor will make every effort to avoid damage to any specialty landscaping that may be within the limits of construction.

We appreciate your cooperation and your patience during the construction of this project.
