You are reminded that you, as grantee, are responsible for ensuring that all grant funds are used in accordance with all program requirements. An executed Grant Agreement is a legally binding agreement between the Department of Housing and Urban Development and your agency. Please note the special conditions attached to each Funding Approval/Agreement, including CDBG.

If the project or activity is exempt per 24 CFR 58.34 or categorically excluded (except in extraordinary circumstances), no RROF is required.

Build America, Buy America (BABA)

On November 15, 2021, the Build America, Buy America Act (the Act) was enacted as part of the Infrastructure Investment and Jobs Act (IIJA). Pub. L. 117-58. The Act establishes a domestic content procurement preference, the Buy American Preference (BAP), for Federal programs that permit Federal financial assistance to be used for infrastructure projects. In Section 70912, the Act further defines a project to include “the construction, alteration, maintenance, or repair of infrastructure in the United States” and includes within the definition of infrastructure those items traditionally included along with buildings and real property. Starting May 14, 2022, new awards of Federal financial assistance (FFA) from a program for infrastructure, and any of those funds obligated by the grantee, are covered under the Build America, Buy America (BABA) provisions of the Act, 41 U.S.C. 8301 note. The [waiver, published March 15, 2023](#), establishes a phased implementation schedule for application of the BAP to covered materials and HUD programs.

The BAP is applicable **now** to iron and steel used in covered CDBG projects, i.e. for projects using funds obligated on or after November 15, 2022. For CPD, the BAP will apply next to iron and steel used in covered Recovery Housing Program (RHP) projects for funding obligated on or after August 23, 2023. The Phased Implementation waiver established the following implementation schedule for HUD programs:

| BAP will apply to... | Iron and Steel | Specifically Listed Construction Materials | All Other Construction Materials | Manufactured Products |

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The City of Royal Oak has developed the following community needs priorities / objectives in the PY2021 - PY2025 Consolidated Plan:

Housing

Affordable Owner-Occupied & Renter-Occupied Housing

To preserve and increase the supply of affordable owner-occupied and renter-occupied housing for low-to moderate-income residents through housing rehabilitation, new construction, advocacy, policies, and regulations.

Special Needs Housing

To preserve and increase the supply of affordable housing with supportive services for special needs populations, including the frail elderly and disabled persons through housing rehabilitation, new construction, advocacy, policies, and regulations.

Fair Housing Choice

To promote and ensure fair housing choice for all residents.

Homeless

Immediate Shelter Needs of the Homeless

To support the immediate, temporary shelter needs of those experiencing homelessness.

Public Services That Benefit the Homeless

To support public services that help those experiencing homelessness so they may immediately seek a more stable setting and gain access to network of services to achieve self-sufficiency.

Non-Homeless Special Needs

Public Services That Benefit Special Needs Population

To support and facilitate access to the wide variety of existing public services that may enhance life skills and self-sufficiency.

Neighborhood Investment

Public Improvements & Facilities

To create new or improved public facilities and infrastructure in CDBG Target Areas by identifying, designing, and implementing unique projects.

Redevelopment of Blighted Properties

To eliminate individual instances of blight and create economic job opportunities and/or below market rate multiple-family housing.

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

Staff recommends policies and funding allocations based on past performances. Below are just a few examples.

Single-family homes represent approximately 62% of the city's total land uses. The overwhelming majority (63.3%) of these single-family homes were built prior to 1960. Since the inception of the CDBG program, Royal Oak has allocated tremendous resources to assist low- to moderate-income single-family homeowners maintain and renovate their homes. The program is designed to provide no and low interest loans, also forgivable loans for rehabilitation projects. It ensures affordability and preserves the aging housing stock. It's been successful at stabilizing neighborhoods city-wide. Royal Oak continues to allocate CDBG resources to this activity.

In the fall of 2013, Royal Oak completed a large infrastructure project by leveraging CDBG funds from three program years. This project was able to transform a blighted corridor and has led to greater interest in real estate along the corridor. While it is difficult to allocate funds over several program years and meet Housing of Urban Development (HUD)'s timeliness of expenditure requirements, Royal Oak believes that these types of projects will have a larger impact on a corridor or neighborhood versus small scale projects spread across the entire city each program year. Royal Oak will continue to identify, design, and implement unique projects which transform corridors and neighborhoods.

Additionally, several years ago, Royal Oak utilized CDBG funds to purchase and demolish a blighted property within the corridor. Upon completion of the large infrastructure project, developers began to approach the city to purchase and redevelop the once blighted property. The property has been sold to a developer who has approval to build a new concept of small-scale apartments. While this type of living environment is underway in other metropolitan areas around the country, no other developer in the metro Detroit area has embarked on such an endeavor. The developer specifically selected the property and type living environment due to the CDBG-funded infrastructure improvements which created a more pedestrian friendly corridor to neighborhoods and downtown.

4. Summary of Citizen Participation Process and consultation process

1. Summary of citizen participation process/Efforts made to broaden citizen participation Summarize citizen participation process and how it impacted goal-setting

While the city provided the opportunity for public participation during the development of the PY2023 Annual Action Plan, the city's goals have already been established in the Strategic Plan portion of the Five-Year Consolidated Plan. Any public comment during the development of the PY2023 Annual Action Plan would not have modified the goals. It would however direct the city commission toward activities and funding levels for PY2023.

The Royal Oak Rehabilitation Board of Appeals held public hearings at their November 22, 2022 & March 21, 2023 meetings. Notice of both public hearings were published in The Daily Tribune, a local newspaper, and to the CDBG webpage of the city's website. Availability of the draft CDBG PY2023 Annual Action Plan was published in The Daily Tribune, a local newspaper, on March 9, 2023. The Royal Oak City Commission considered the rehabilitation board of appeals' recommendation at their March 21, 2023 meeting. While not a public hearing, all Royal Oak City Commission meetings allow the opportunity for public comment. Notice of the 30-day comment period will be published in The Daily Tribune on -----, 2023. Any written public comments ----- incorporated into the annual action plan.

Table 5 - Expected Resources – Priority Table

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

To receive CDBG funds from the City of Royal Oak, local organizations / agencies must provide an application and supplemental information

detailing their funding sources and leverage opportunities for specific activities. The city does not require "matching" non-CDBG or federal funds. The Royal Oak City Commission will weigh the value of proposed activities in light of the goals in the consolidated plan and the likelihood that the activity would be implemented without the presence of CDBG funds. Subrecipient activities that would be implemented regardless of the city's CDBG funds stand a greater likelihood of not being funded. Many of the public service subrecipients leverage a wide variety of funding sources. This is a standard practice. These organizations will not be penalized for this practice.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

None has been identified at this time.

AP-75 Barriers to affordable housing -91.420, 91.220(j)

Introduction

While changes to development codes, such as provisions in the city's zoning ordinance, may help increase the supply of housing, that may not translate to affordability.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

In 2019, the Royal Oak Planning Commission reviewed a staff report on current density, parking and design standards for multiple-family dwellings required under the City's Zoning Ordinance. The staff memorandum can be found online at:

<https://www.romi.gov/DocumentCenter/View/24522/D3b---MFR-Lot-Size-Density-Parking> It outlined various issues created by the existing standards and referenced possible revisions to the Zoning Ordinance that could potentially address them. Based on their input, staff prepared zoning ordinance text amendments to address the issues identified. The memorandum can be found online at:

<https://www.romi.gov/DocumentCenter/View/25745/E2---Prelim-Review-of-Potential-Text-Amendments---Lot-Size-Density-Parking-Otherfor-MFR> At the suggestion of the planning commission, the Royal Oak City Commission amended provisions in the city's zoning ordinance to increase the maximum permitted building height in the multiple-family, mixed-use, office, commercial, and industrial zoning districts. The planning commission adopted a motion postponing the review of all other discussion topics related to multiple-family developments, such as density and required number of parking spaces, until the next master plan update.

In the fall of 2022, the city commenced the process to create a new land use Master Plan. Early research, discussions, and public comments have gravitated toward the topic of affordable housing.

In light of the timeframe to accomplish a new land use Master Plan and subsequent development regulations, the Royal Oak City Commission adopted community benefits guidelines in the fall of 2022. The guidelines serve as a statement of development principles to encourage attainable housing, environmental sustainability, etc. Developers selecting the planned unit development (PUD) process must demonstrate such principles in their development to receive approvals. Two recent PUD developments were approved with a modest number of affordable

housing units.

In February of 2023, the Royal Oak City Commission also allocated \$1,950,000 of its ARPA funds to the development of new affordable housing. As of June 22, 2023, staff has meet with 13 developers regarding the possibility of leveraging the city's ARPA funds to construct a new affordable housing development.

AP-85 Other Actions - 91.420, 91.220(k)

Introduction

The City of Royal Oak will engage in a wide variety of activities intended to address the identified needs in the CDBG Strategic Plan.

Actions planned to address obstacles to meeting underserved needs

The underserved may include special need individuals, minority concentrations, those experiencing homelessness or those at-risk of becoming homeless, victims of domestic violence or sexual assault, returning veterans, the frail and elderly, large families, etc. The City will allocate CDBG funds to its at home senior assistance program (ROSES). CDBG funds will be provided to South Oakland Sheleter, d.b.a. Lighthouse of Oakland County, which assists those at-risk of becoming homeless. The City's CDBG-funded housing rehabilitation program will provide a direct mailer about the availability of the program to all homeowners within the census tract with the highest percentage of minor homeowners. The City will continue to work with the local CoC to utilize the City Hall as a deployment center for volunteers and PIT County coordinators in January 2024.

Actions planned to foster and maintain affordable housing

The City plans to preserve and increase the supply of affordable owner-occupied and renter-occupied housing for low- to moderate-income residents through CDBG-funded housing rehabilitation and new construction, advocacy, policies, and regulations. The housing rehabilitation program offers low and no interest loans and forgivable loans for renovations to existing single-family houses occupied by low- to moderate-income persons. These low or no cost financial options make it more affordable for homeowners to protect their investment and maintain affordable living conditions. Additionally, the City participates in the Oakland County HOME Consortium. The Consortium has greater direction on how its proportional HOME funds are expended on projects within Oakland County versus the state administered program which invested our proportional funds state-wide. The HOME program has shifted focus to rental assistance. The HOME program funds also provide gap financing for newly acquired and constructed or rehabilitation or preservation of affordable multiple-family rental housing with Oakland County.

In the fall of 2022, the city commenced the process to create a new land use Master Plan. Early research, discussions, and public comments have gravitated toward the topic of affordable housing.

In light of the timeframe to accomplish a new land use Master Plan and subsequent development regulations, the Royal Oak City Commission adopted community benefits guidelines in the fall of 2022. The guidelines serve as a statement of development principles to encourage attainable housing, environmental sustainability, etc. Developers selecting the planned unit development (PUD) process must demonstrate such principles in their development to receive approvals. Two recent PUD

developments were approved with a modest number of affordable housing units.

In February of 2023, the Royal Oak City Commission also allocated \$1,950,000 of its ARPA funds to the development of new affordable housing. As of June 22, 2023, staff has meet with 13 developers regarding the possibility of leveraging the city's ARPA funds to construct a new affordable housing development.

Actions planned to reduce lead-based paint hazards

The City operates a CDBG-funded housing rehabilitation program (owner-occupied single-family dwellings). The program has specific procedures which outline the steps required to educate, test, contain and/or remediate LBP. All rehabilitation projects in which the structure was constructed before 1978 fall under the Federal LBP regulations. A lead hazard information pamphlet is provided to all prospective participants in the housing rehabilitation program, regardless of age of the structure. If the structure was built before 1978, a LBP risk assessment is conducted. The results are provided to the applicant. The finds are incorporated into the specifications for the rehabilitation work. All of the contractors participating in the City's housing rehabilitation program must present and maintain status as a LBP certified contractor. The risk assessment determines the degree of rehabilitation work needed to gain compliance with Federal LBP regulations and provide LBP-free living environment to all homeowners. Occupants may not be present during any site work. Once the contractor has completed all site work, a LBP clearance test is conducted. The results of the clearance test are provided to the homeowner. No occupant may return to the dwelling unit until the site gains clearance. All public service subreipients that provide housing assistance in any manner must verify that the associated housing unit has been inspected and meets HUD's minimum required Housing Quality Standards (HQS). inspection, requirements including the provisions regarding LBP. Any dwelling unit that does not meet HUD's HQS standards must be brought into compliance. These actions educate the public of the danger of LBP, ensure compliance with Federal regulations to address the presence of LBP, and provide a LBP free living environment for all occupants upon completion of all site work.

Actions planned to reduce the number of poverty-level families

The City plans to fund South Oakland Shelter's eviction prevention services. This allows poverty-level families with "housing first" and gains them access to SOS's wide variety of supportive services toward returning to self-sufficiency. The City also plans to fund its housing rehabilitation program. The City believes poverty-level families will financially and emotionally benefit greatly from livable single-family homes. A stable living arrangement can lead to great economic stability and upward economic mobility. The City actively seeks Section 3 (low-income residents or businesses) in every CDBG-funded project.

The selection of Section 3 firms provides economic gain to poverty-level families.

Actions planned to develop institutional structure

The City relies on existing agencies to assist its residents with access to a wide variety of public services. As applicable, all of the City's CDBG subrecipients are required utilize HMIS. This creates a seamless information system to assist clients in need that may utilize different agencies for different services. The information system helps reduce redundant institutional efforts and keep clients on track with their own case management efforts.

Actions planned to enhance coordination between public and private housing and social service agencies

The City's continued participation in the Oakland County HOME Consortium greatly strengthens its knowledge of and access to the Continuum of Care, other HUD-funded levels of government within Oakland County, and a broader network of social service agencies. Regular meetings and networking strengthen our knowledge of the local needs and the institutional structure to deliver results.

Specific Community Development Block Grant Certifications

The Entitlement Community certifies that:

Citizen Participation -- It is in full compliance and following a detailed citizen participation plan that satisfies the requirements of 24 CFR 91.105.

Community Development Plan -- Its consolidated plan identifies community development and housing needs and specifies both short-term and long-term community development objectives that have been developed in accordance with the primary objective of the CDBG program (i.e., the development of viable urban communities, by providing decent housing and expanding economic opportunities, primarily for persons of low and moderate income) and requirements of 24 CFR Parts 91 and 570.

Following a Plan -- It is following a current consolidated plan that has been approved by HUD.

Use of Funds -- It has complied with the following criteria:

1. Maximum Feasible Priority. With respect to activities expected to be assisted with CDBG funds, it has developed its Action Plan so as to give maximum feasible priority to activities which benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Action Plan may also include CDBG-assisted activities which the grantee certifies are designed to meet other community development needs having particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available (see Optional CDBG Certification).

2. Overall Benefit. The aggregate use of CDBG funds, including Section 108 guaranteed loans, during program year(s) 2023, 2024, 2025 [a period specified by the grantee of one, two, or three specific consecutive program years], shall principally benefit persons of low and moderate income in a manner that ensures that at least 70 percent of the amount is expended for activities that benefit such persons during the designated period.

3. Special Assessments. It will not attempt to recover any capital costs of public improvements assisted with CDBG funds, including Section 108 loan guaranteed funds, by assessing any amount against properties owned and occupied by persons of low and moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements.

However, if CDBG funds are used to pay the proportion of a fee or assessment that relates to the capital costs of public improvements (assisted in part with CDBG funds) financed from other revenue sources, an assessment or charge may be made against the property with respect to the public improvements financed by a source other than CDBG funds.

In addition, in the case of properties owned and occupied by moderate-income (not low-income) families, an assessment or charge may be made against the property for public improvements financed by a source other than CDBG funds if the jurisdiction certifies that it lacks CDBG funds to cover the assessment.

Excessive Force -- It has adopted and is enforcing:

1. A policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in non-violent civil rights demonstrations; and
2. A policy of enforcing applicable State and local laws against physically harring entrance to or exit from a facility or location which is the subject of such non-violent civil rights demonstrations within its jurisdiction.

Compliance with Anti-discrimination laws -- The grant will be conducted and administered in conformity with title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and the Fair Housing Act (42 U.S.C. 3601-3619) and implementing regulations.

Lead-Based Paint -- Its activities concerning lead-based paint will comply with the requirements of 24 CFR Part 35, Subparts A, B, I, K and R.

Compliance with Laws -- It will comply with applicable laws.
