## **Notice of Construction**

### **2025 Road Reconstruction Improvements**

The 2025 Road Reconstruction Improvements project will be constructed this spring/summer to replace the pavement along the following streets:

<p><b>Hillside Drive</b> between Hillside Court and Yorba Linda Boulevard <b>Ravena Avenue</b> from Chester Road to Dead End</p>
--

The project includes new concrete pavement, curbing and driveway approaches on each road. The contractor awarded this work is Mark Anthony Contracting, Inc. of Milford, Michigan. The city's Engineering Division staff will oversee the project.

**Construction Timeline:** Construction is anticipated to begin **late April 2025** and extend through **July 2025**. Work is currently not scheduled for Sundays or holidays.

#### **Advanced Notices:**

**Parking** - During construction, there will be lane restrictions to allow for construction equipment and residential access. "No Parking - Tow Away Zone - 7:00a.m. - 8:00p.m." signs will be posted 12 hours in advance wherever required to allow for various construction operations. When road paving begins, residents will need to park on a different block for two to three weeks. *Please contact city staff as soon as possible if you have an electric vehicle. Staff will work to accommodate EV charging needs in the event you temporarily lose driveway access during construction.*

**Paving** - Residents will be notified 24 hours in advance via door hanger when road paving begins. Once the new concrete roadway pavement is placed, the street will be closed to vehicles for approximately one week to allow the concrete to cure. After curing is complete, new driveway approaches will be installed. This will require approximately one week for the removal, grading, forming and placement of new concrete and one week for concrete cure time. You will not have access to your driveway during this period, a total of up to three weeks. **Please DO NOT move barricades or drive on new concrete until the barricades are removed by the contractor. Property owners who remove barricades and drive on the concrete will be billed for the cost to repair any damaged concrete.**

**Trash / Recycling:** Unless otherwise notified, there will be no change in the trash and recycling pickup dates and the trash will be picked up as usual. If necessary, the containers may need to be moved by the contractor to the nearest intersection for pickup. **Please have address markings on all trash and recycling containers so they can be returned to the proper house.**

**Landscaping/ Restoration:** Where lawn areas have been damaged by the contractor's operations, the disturbed areas will be replaced with topsoil and sod. Depending on the summer weather conditions, **restoration of the lawn areas disturbed by the construction may not begin until after Labor Day.** The city does not replace special landscaping, brick, timbers, plantings, fences or shrubs placed on city's property or within the public utility easements.

**Private Sprinkler Systems:** Systems that encroach into the public right-of-way must have the sprinkler heads and lines marked by the homeowner by **April 25, 2025** prior to the start of construction. Sprinkler systems that are not marked at the time of construction and are damaged during the construction will not be repaired by the city or its contractor. The repair or replacement of damaged, unmarked sprinkler systems will be the responsibility of the property owner.
