Notice of Construction

Benjamin Avenue Traffic Calming Installation

The city is beginning construction on mini traffic circles on Benjamin Avenue between Webster Road and 13 Mile Road. The traffic calming was approved by the Citizens Traffic Committee and City Commission in December of 2023. A map of the layout is shown on the back of this letter. This work is being added to the city's 2025 Road Reconstruction Improvements contract which was awarded to Mark Anthony Contracting, Inc. of Milford, Michigan. The city's Engineering Division will oversee the project.

Street and Driveway Access: During construction, there will be lane restrictions to allow for construction equipment and residential access. If a driveway or adjacent curbing needs to be replaced, the contractor will provide affected residents with a 24-hour notice using a door-hanger, and the use of the driveway approach will be unavailable for up to two weeks for removal, replacement and curing of new concrete. **Please DO NOT move barricades or drive on new pavement until the barricades are removed by the contractor. Property owners who remove barricades and drive on the new pavement may be billed for the cost to repair damaged pavement.**

Trash / Recycling: Unless otherwise notified, there will be no change in the trash and recycling pickup dates and the trash will be picked up as usual. If necessary, the containers may need to be moved by the contractor to the nearest intersection for pickup. **Please have address markings on all trash and recycling containers so they can be returned to the proper house.**

Landscaping/ Restoration: Where lawn areas have been damaged by the contractor's operations, the disturbed areas will be replaced with topsoil and sod. The city does not replace special landscaping, brick, timbers, plantings, fences or shrubs placed on city's property or within the public utility easements.

The city realizes this construction will be an inconvenience, and all efforts to expedite this work will be utilized to minimize traffic conflicts and provide residential access.
